

For Our Youth

In the spirit of World Youth Day,
We ask for blessings on young people
In every part of the global community.
Help us to recognize their passion
For the fullness of life
And affirm their desire for solidarity.
Help us to model for them
The practice of hope
and the commitment
to the work of justice and peace.
Help us support them
In their attempts
To develop their gifts
And to understand their call.
May our youth know
They are loved deeply
By their elders and especially
By the Source of all Love.
